

# DANUBE LAUNDRY KIOSK 32

## Payment systems

### FEATURES

Two models available:

- 12" touch screen
- 32" touch screen

**32" model** available **with or without printer**

Connection to the Kiosk to the Internet via Ethernet.

Front and rear opening for maintenance.

Integrated with Danube Online IoT for unlimited connections of

Danube machines equipped with ET2 control via Ethernet-IoT.

Can be connected by means of pulse communication to other

equipment (8 machines per kiosk)\*

\*Installation of an electronic plate required, offered by Danube as option, in case of pulse communication.

#### SIMPLICITY OF USE

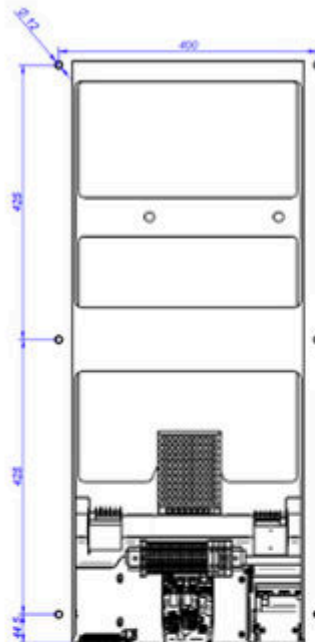

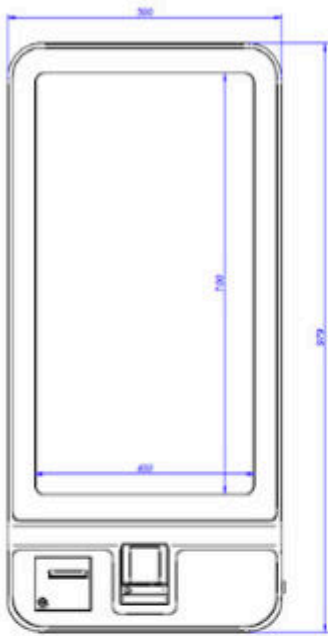

1. Select the process (washing, drying, or ozone disinfection)
2. Select the machine
3. Select the program
4. Pay by placing your card near the contactless device
5. Insert the clothes in the machine and press START.

Net height / gross height	mm	980,2 / 1.050
Net weight / gross weight	mm	22,5 / 25

#### WITH REAR ACCESS

All wiring is concealed, components can be accessed from the rear.

It is recommended to drill a cavity in the wall respecting the anchor points of the Kiosk.

#### WALL MOUNTED WITHOUT REAR ACCESS OR IN COLUMN

A cable outlet is required at the front containing the Ethernet cable, power and pulse wiring.

By unlocking on the side, it is possible to move the assembly (leaving only the anchoring part to the wall) to carry out maintenance.

#### MODEL WITH PRINTER

To facilitate maintenance of the model with printer, a lockable front opening has been installed, designed to quickly replace the printing paper.

Not available on 12" model.
